EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney L. Lee Eubanks IV on 3/31/2009.

The application has been amended as follows:

Claims 1-18, and 34 -38 are cancelled.

Claim 21 is added into claim 19, and claim 21 is cancelled.

Claim 22, line 1, "the circuit of claim 21" changes to "the circuit of claim 19".

Allowable Subject Matter

2. Claims 19, 20, 22-33 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Claim 19 recites a relay control circuit comprises the relay is supported on a terminal block, and wherein the solid state switch and the leakage current suppression circuit are supported on a circuit board mounted within the terminal block.

Claim 29 recites a terminal block relay assembly comprises
a terminal block including input terminals, output terminals, a bay for receiving a relay, and connections for routing signals between the terminals and the relay;

a relay disposed in the bay and coupled to the connections, the relay having an operator;

a circuit board supported in the terminal block and coupled to the input terminals and to the relay operator via two of the connections;

a solid state switch supported on the circuit board and coupled in series with the relay operator to control energization of the relay operator.

The references of record do not teach or suggest the aforementioned limitations, nor would it be obvious to modify those references to include such limitations.
